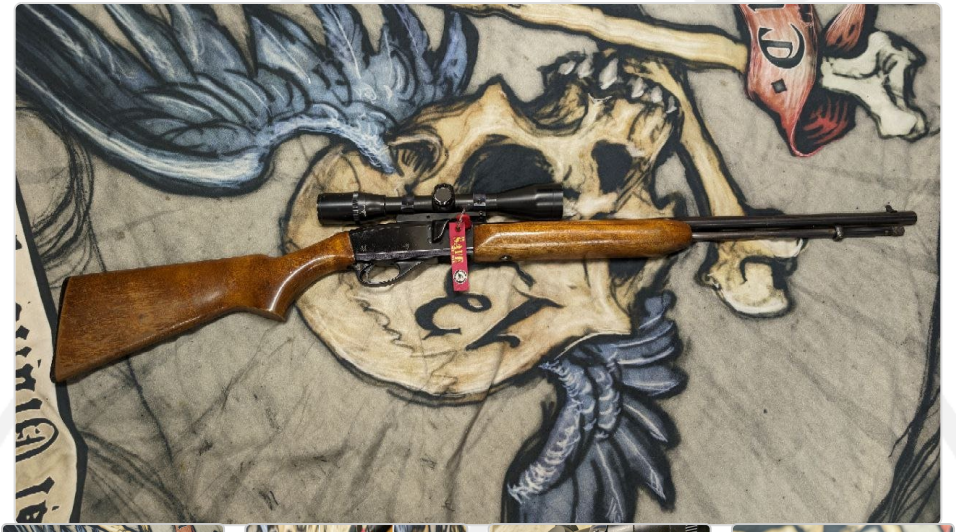
REMINGTON SPEEDMASTER 522

£75.00

Witney



DESCRIPTION

This under barrel fixed magazine comes with a "Original Model 12" 4x40 scope making it a perfect bunny basher or pest control rifle. In used condition, it still has the reliability you'd expect from Remington.

Designed by Remington engineers L.R. Crittendon and E.W. Hailston, and first introduced in 1957, the model 552 features a self-loading, blowback action featuring a low profile left-side bolt handle that lends itself to a clean receiver appearance and slender profile.
